There was a clear liquid in each syringe up to the 20 ml. line. There was a piece of clear tape on the outside of each barrel on the syringe with "Lido" written on it. A preparation date was not written on them and an expiration date was not on them. Also missing was a name/initials and title of the person who drew up the "Lido".</p> <p>Licensed practical nurse #A walked by the area. She was asked who put the syringes on the desk. She responded, "I did. I just took them out of the cupboard and placed them there." The DOPS confirmed that they were on the desk and she confirmed that they should not be left accessible to everyone in that area.</p>	A 250	<p>No one was effected by this finding and corrections have been completed. All licensed staff are trained regarding policy &amp; procedure on how to prepare and store medications. Labels were created for all medications that need to be prepared (see attachment of in house medication labels completed on 5/23/13)</p> <p>Plan: The location where medication is drawn up will now be prepared where more than one licensed staff member will be present to ensure compliance and closer monitoring. This will be reviewed by our lead clinician monitored monthly.</p>	6/3/13
